OBJECTIVE

Aspiring web developer with a strong foundation in Software Engineering and a passion for building impactful, user-friendly solutions. Skilled in web development and problem-solving, with hands-on experience in collaborative projects. Eager to contribute, learn, and grow while creating meaningful solutions for both technical and community-driven challenges.

Technical Skills

- Programming Languages: C, C++, Java, Python, R
- Web Development: HTML, CSS, JavaScript, Node.js
- Database Management: RDBMS, MySQL, MongoDB, Microsoft SQL Server
- APIs and Tools: API Integration, RESTful APIs, Git, Firebase, Google Cloud Platform
- Authentication : JWT, Bcrypt.js, OAuth using Google Authentication
- Frameworks and Libraries: React.js, JSON handling, Express.js
- Software Design: UI/UX design
- Other Skills: Data Structures and Algorithms (DSA), Problem-solving,
- MS Excel, team management, good communication skills, Multi-Tasking, Creative Thinking, Research-Oriented.

PROJECTS

Web Crawler ([Code](#))

- HTTP-Web Crawler - Recursive website crawler with URL tracking.
- Tech Stack: React.js, JavaScript, Node.js, Express.js, MongoDB

Compression toolkit ([DEMO](#))

- Developed a Compression toolkit interface using PCA Algorithm to compress files.
- Tech Stack: HTML,CSS and JavaScript

PROFARM ([DEMO](#))

- Developed a web application that helps farmers make informed agricultural decisions using NASA's Earth Observation Data.
- Tech Stack: Utilized HTML, CSS, JavaScript, Node.js, Express, and the Gemini AI API to process and display real-time insights.

Weather Prediction Model ([Code](#))

- Developed an ML model trained on a large dataset of different regions of India from NASA's open source data.
- Tech Stack: Python, Flask, Sci-Kit Learn, Ridge-regression model

AI Recipe Suggestor

- An automatic AI Chatbot powered by Google Gemini API key & one fine-tuned LLM Model to suggest Recipes based on user's input.
- Tech Stack: Python, HTML, CSS, Google Gemini API, Fine-Tuned LLM Model

EDUCATION

B.Tech in Computer Science Engineering

Vellore Institute of Technology (VIT) | 2027 (Expected)

PBRP Academy (2018-2021)

Achievements & Involvement

- Winner: Best Local Impact Award – NASA Space Apps Challenge 2024
- 2nd Winner: MathClub Hackathon, VIT-AP University
- Hackathon Participation: Multiple national and international hackathons focusing on sustainability and innovation
- Leadership: Google Developer Group (GDG) OnCampus, VIT AP - Worked on cloud projects and organized tech events.

EXTRACURRICULAR ACTIVITIES

- Writing a Research Paper on the topic of Chained exponential functions with recursive functional exponents.
- Certifications in Google Cloud Essentials | Web Development Bootcamp | MATLAB (Basics, Simulink, Stateflow)
- Active in hackathons, coding competitions, and open-source contributions.
- Passionate about UI/UX design and community-driven projects.
